Wildlife in your Ward - Llandeilo

The Carmarthenshire Nature Partnership has produced this profile to highlight some of the wildlife, habitats, and important sites in your local area.

Carmarthenshire is justly celebrated for the variety within its natural environment, from the uplands in the north-east of the county to our magnificent coastline.

Every ward contributes to the rich and varied network of wildlife habitats that make up the county, whether that be woodlands, grasslands hedgerows, rivers or gardens.

There are still gaps in our knowledge about Carmarthenshire's natural environment and the wildlife it supports. Despite having a wealth of data, some species and pockets of special habitats remain unrecorded and

unmapped. There is always more to find out.

Wildlife and our natural environment reflect local culture and past human activity. We see this in the field and hedgerow patterns in our agricultural landscapes, and in areas previously dominated by industry where, today, new habitats develop on abandoned land. And our farm, house and street names provide clues to the history of our natural environment.

The mosaic of habitats in Llandeilo make up an ecological network. If these habitats are well managed, are well connected and are sufficiently extensive, they will support a diversity of species and help to make a resilient natural environment.

A resilient natural environment supports wildlife and provides a range of ecosystem services, e.g. agricultural products, pollinators, timber, drinking water, regulation of floods and soil erosion, carbon storage and recreation and inspiration. Find out more at:

https://bit.ly/3u12Nvp

We hope it you will find this profile interesting and that it might encourage you to explore your local area and record what you see. There are links in the profile that will help you to find out more and take action locally. Thank you to all those in

Llandeilo wards who have already sent information and photos. These profiles can be updated so please continue to send us information about the Wildlife in your Ward'.

Funded by Welsh Government through the Local Nature Partnership Cymru project.

Produced by Carmarthenshire County Council for the Carmarthenshire Nature Partnership

For further information please contact: Biodiversity@carmarthenshire.gov.uk

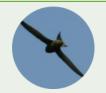

Llandeilo Ward

The towering, ruined castles at Dinefwr and Carreg Cennen overlook much of this largely farmed landscape where tourism plays an increasingly important role. These historically important sites are now as valued for their biodiversity as for their cultural value. Bands of limestone and sandstone create a mosaic of fascinating upland habitats around Trap and Carreg Cennen, with ash woodland on the limestone and oak on the sandstone. The rivers Loughor and Cennen have their sources here - but find different routes to work their way to the sea. Small areas of species-rich marshy grassland exist within the farmed landscape, with pockets of scrub, wet flushes, fen meadows and wet heath. This mosaic of habitats supports a range of wildlife, including important populations of the marsh fritillary butterfly. The meandering River Tywi in the north of the ward creates ever-changing banks of shingle and old ox-bow lakes that provide fascinating habitats for unusual birds and plants. Wet woodlands on valley edges, in various states of maturity, fringe the otherwise agriculturally intensive flat valley floor. Ancient parkland oaks, covered in rare lichen, characterise the cattle and sheep grazed fields and parkland in and around Dinefwr Park.

Special species in your ward

All the species in your ward are important in some way and help make your natural environment special. Some of the species recorded in Llandeilo are listed by Welsh Government as being of principal importance for biodiversity in Wales – so your area is important. Here are some species highlights from your ward.

Swifts spend most of their lives flying – even sleeping, eating and drinking – only ever landing to nest. They like to nest in buildings in small holes in roof spaces. Watch for them in summer wheeling over roofs and calling to each other with high-pitched screams.

The hummingbird hawk-moth is one of the 363 moth species recorded in your wards. It is a day-flying summer visitor, migrating from Southern Europe. It can be seen in gardens, hovering like a hummingbird as it feeds on the nectar of honeysuckle, red valerian and other flowers.

Nine species of bats have been recorded in your wards. The varied habitats here (including buildings and gardens) provide a variety of habitats for bats. Did you know single pipistrelle can eat 3000 insects in one night?

Little ringed plovers are summer visitors, first recorded in Carmarthenshire in 1984. Mainly located along the Tywi Valley they breed on the river shingle. Our population amounts to around 10% of the UK breeding population so the county is important for them.

The pied wagtail is often seen in towns, on rooftops or dashing across roads and car parks while wagging its long tail up and down. Pied wagtails eat insects and during the winter flock together at warm roost sites like trees and bushes in city centres.

How can you help?

If we want to protect the wildlife in Llandeilo, help from people who live here can make a real difference. There are many groups and individuals recording their local wildlife and managing areas for Nature in the county.

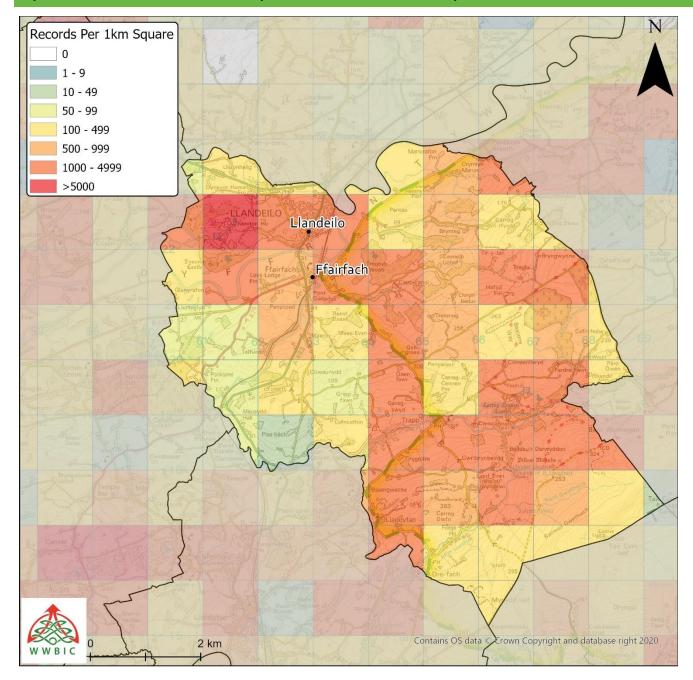

- There 694 are different beetle species recorded in your ward but few records of the cuckoo.
- ➡ Why not visit the Council's biodiversity web pages and the section on priority habitats and species in the county: https://bit.ly/3gsZgyP
- ⊃ Discover what is in your area take a closer look at what is around you let us know. It's amazing!
- → Manage areas in your local school, village and gardens for wildlife make space for Nature.
- Get involved with a local conservation group volunteer some of your time for Nature.
- ⇒ For a range of ideas visit: https://bit.ly/2EENrZ6

Species records in this ward held by the West Wales Biodiversity Information Centre - Dec 2020

Help record the species in your area

West Wales Biodiversity Information Centre (WWBIC) is a valuable source of information about the county's wildlife and anyone can contribute. Common species are often under-recorded so you don't need to be an expert.

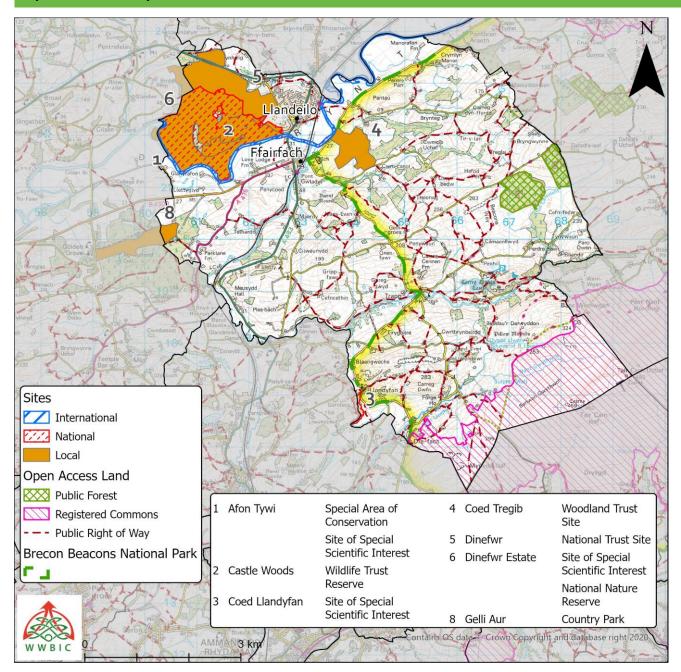

WWBIC holds a lot of biological records for Llandeilo (see the map above).

Why not record the species that you see in your garden or when you are out and about? There are several ways you can record with WWBIC, by email, on the WWBIC website or using the LERC Wales App. More information can be found here: https://www.wwbic.org.uk/wildlife-recording/

There are many websites that can help with species identification. If you are on social media why not join West Wales Biological Recording (http://www.facebook.com/groups/westwalesbiorecording/)

Special sites in your area

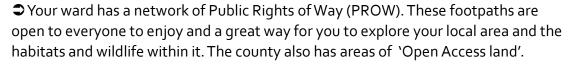

This map highlights the special sites for wildlife in your ward and also places to walk and visit in Llandeilo.

⇒ In Carmarthenshire we have a network of 'designated' sites, protected at a national or international level – these are the best examples of particular habitats in Carmarthenshire or even the UK and/or places where important species live. They are the cornerstones of conservation work, protecting the core of our natural heritage.

Want to find out more? Visit the Natural Resources Wales website - https://bit.ly/2YwEybo.

- NB. These protected sites do not necessarily have public access unless they have a Public Right of Way passing through them or are Open Access Land (see next page).
- ➤ Locally we also have nature reserves with important habitats and species which are managed by a range of organisations. Find out more at: https://bit.ly/2LcLJkM
- ⇒All these are numbered on the map above.

○ Open Access land', under the CRoW Act (2000), consists of open country (mountain, moor and heath land) and 'registered common land. It also includes areas of 'dedicated land' where owners, such as Natural Resources Wales, allow free access.. In these areas you can walk wherever you like, and in the NRW managed forests you can also ride a horse or a bike on the forest tracks, but please be considerate of other users.

Find out more at: https://bit.ly/3n2tahp

⇒ PROWs include Footpaths, Bridleways, Restricted Byways and Byways Open to All Traffic. There are over 2400 km of PROW across Carmarthenshire providing different levels of off road public access from walking to horse riding and cycling, each has its own unique character, you may already have your own favourite. Find out more at: https://bit.ly/2K7k9VK

The maps in this profile are Ordnance Survey maps (OS) – they are a great way to help you find local Public Right of Way and Open Access Land either through paper maps or through their phone App. Find out more at: https://bit.ly/2Wi52Mo

The County also boasts numerous designated cycle paths, many of which make up part of the National Cycle network and Carmarthenshire's Active Travel network. There is over 100 km of designated cycle path in the county. Find out more at: https://bit.ly/3gQopVC and https://bit.ly/3gQopVC and https://bit.ly/3gPcck8.

→ When you are out and about - always follow the Countryside Code: https://bit.ly/37hFjJS

Local Walks/sites to explore

You may already have your own favourite walk in your patch, where you experience the seasonal changes throughout the year. You may walk the same route regularly, but wildlife will not. So, keep your eyes peeled there is always something new to see/experience. But why not try walking another way? You might see something different but also the same sights – just in a different way.

Please tell us about your favourite walk or place to visit - here are some ideas.

General

- There are four local **Ramblers** groups in Carmarthenshire that explore the county. Find out more about the Ramblers' groups in Carmarthenshire: https://bit.ly/3r6xZZn
- Walking Well Carmarthenshire is an initiative which aims to encourage people of all ages and abilities to take advantage of the physical, social and mental health benefits offered by walking in groups of like-minded people. It does this by setting up walking groups around the County. Find out more: https://bit.ly/2J48FCc
- The Discover Carmarthenshire website promotes local walk and cycle routes: https://bit.ly/3r35xYi

Some local suggestions:

- Coed Tregib
- Castle Woods
- Dinefwr Estate
